Playing in Space

By Mie Academy, Know Thy Self

Snuggle close, little star, and let's drift into the night sky together.

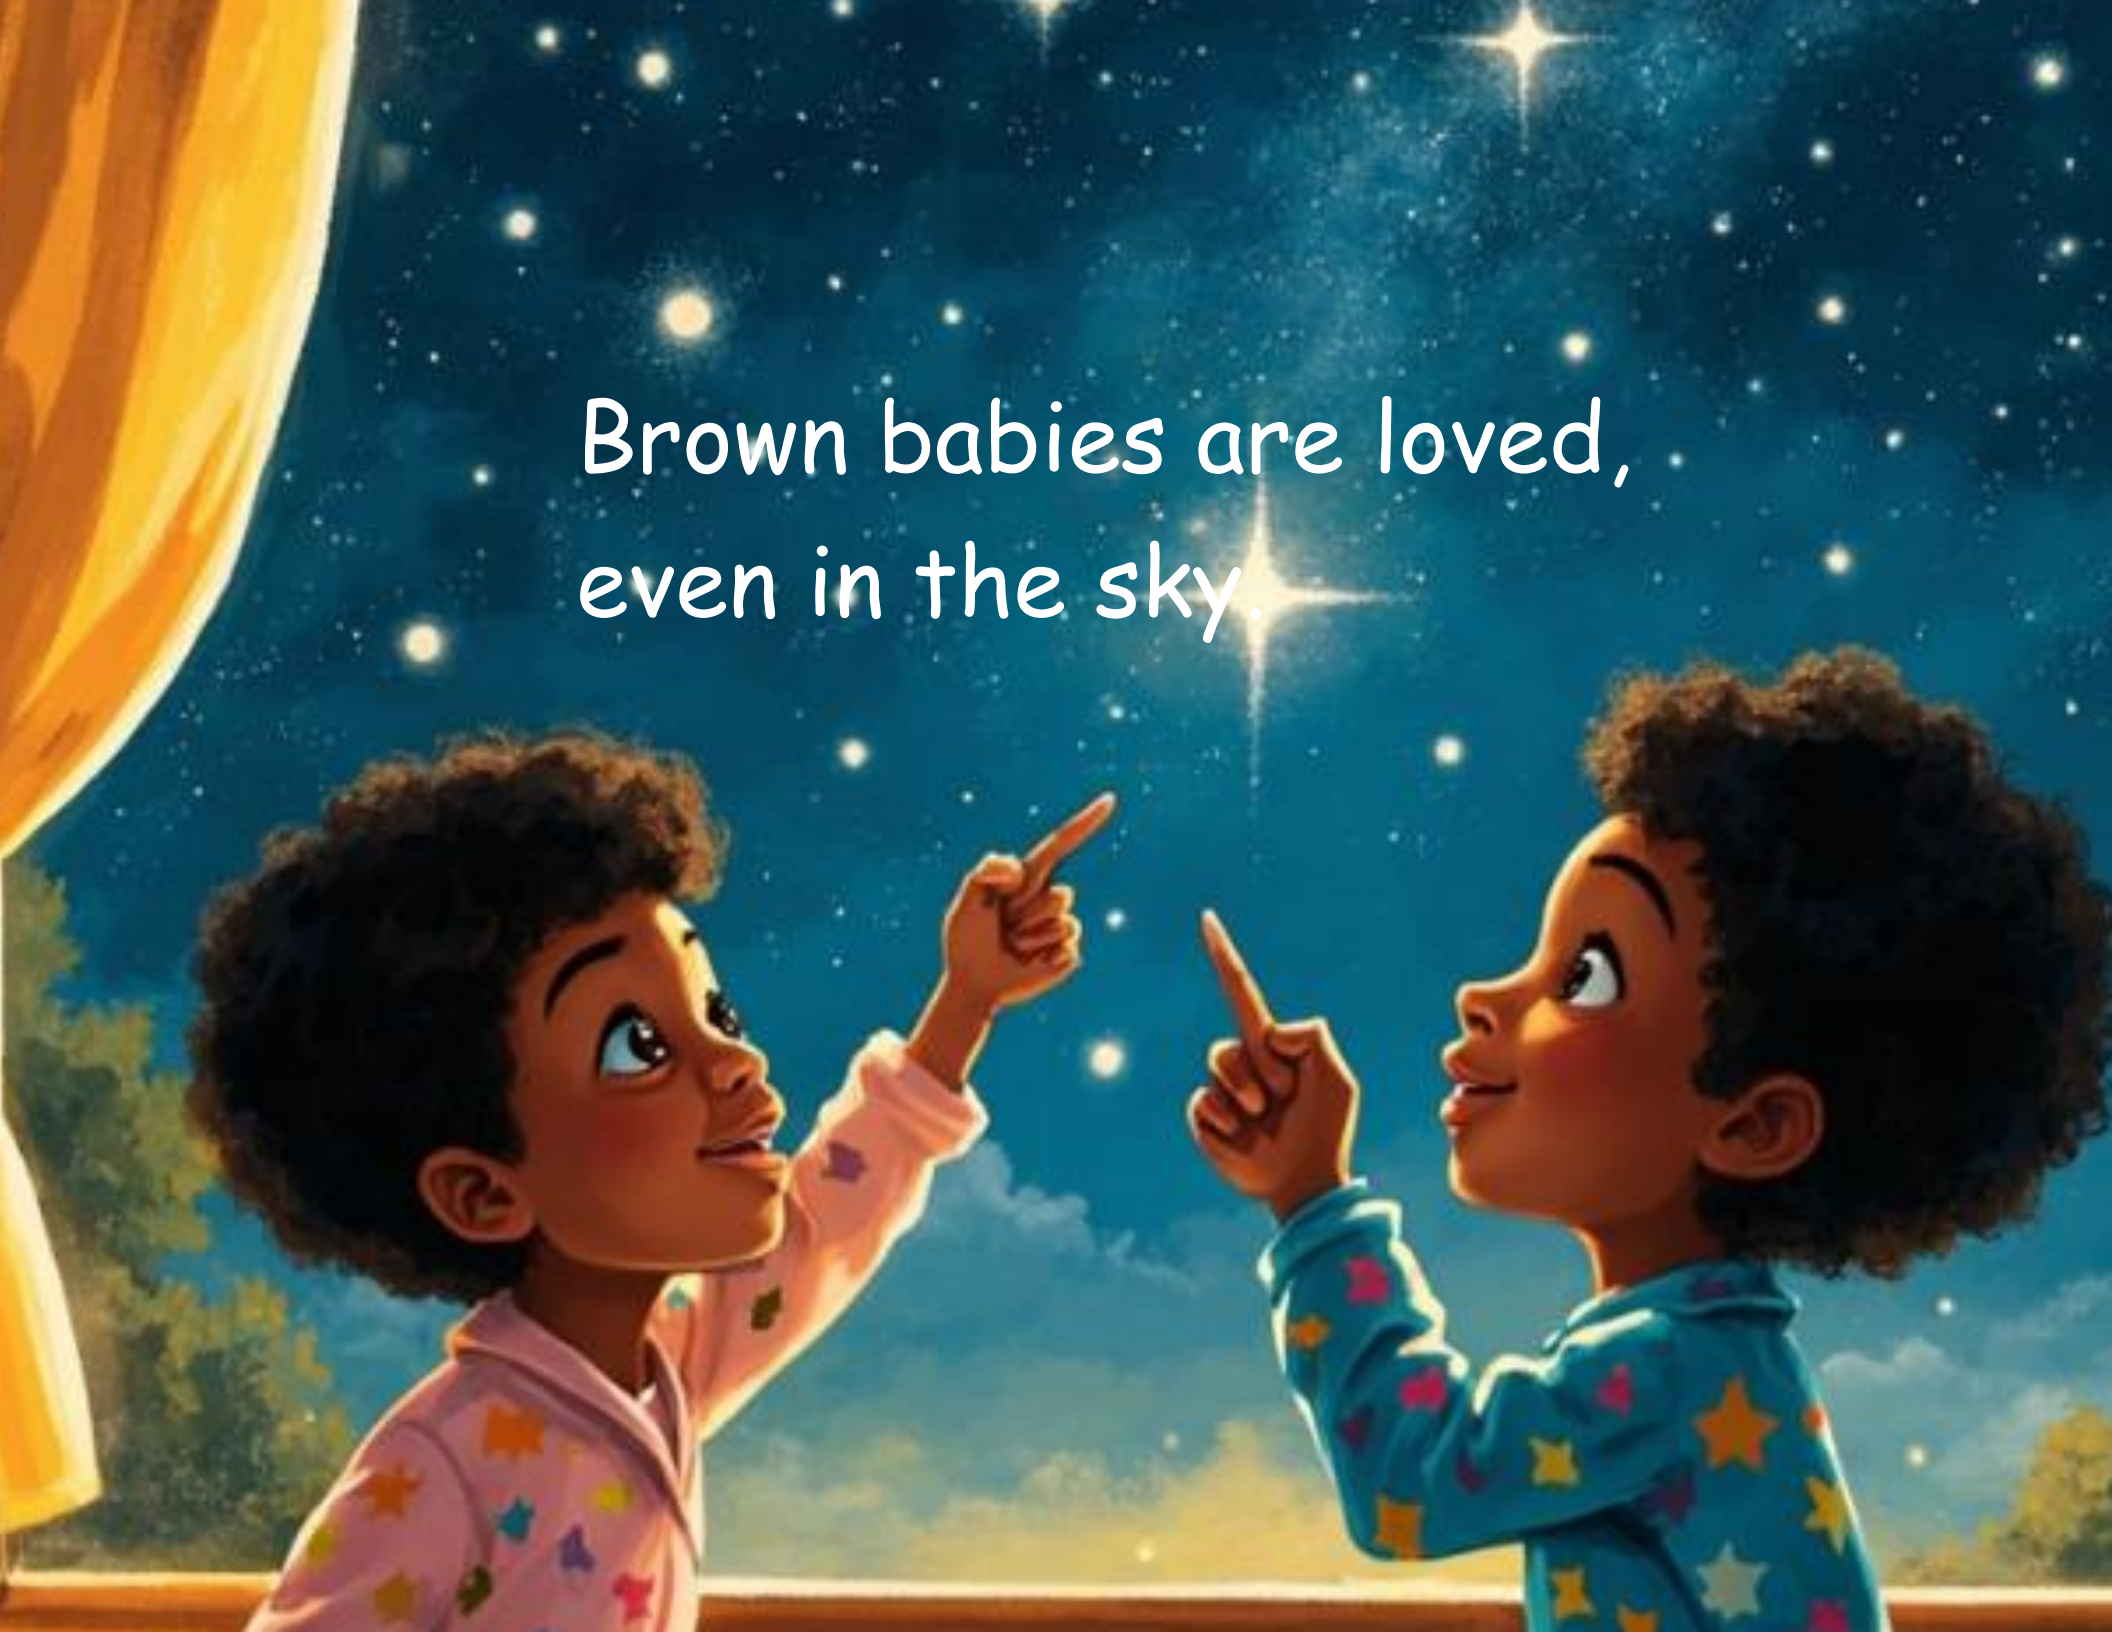

In this third adventure of the *Know Thyself* series, bedtime becomes a rocket ship, and our pajamas are the wings that carry us past the moon, across shining planets, and into galaxies that sparkle like jewels.

This journey is more than outer space—it's inner space, too. As we float among constellations, we remind our melanated babies that they shine just as brightly, that their glow is infinite, and that their place in the universe is powerful and beautiful.

With soothing rhythms and dazzling illustrations, this book is designed for parents to read aloud, wrapping infants in love, pride, and cosmic wonder. Each page is a lullaby of affirmation: *You are light. You are vast. You are part of the universe, and the universe is part of you.*

Collect the series and let your children shine — in the sun, in the sea, in space and in their skin. A must-have for every melanin-rich bookshelf. A keepsake for every family who wants their children to shine.

Brown babies are loved,
even in the sky.

An illustration of three young children with dark skin and curly hair, smiling and looking out of the cockpit of a blue and red rocket ship. The rocket is flying through a dark blue space filled with stars. A bright yellow and orange flame trail is visible at the bottom left of the rocket. The children are wearing colorful clothing: one in a yellow shirt, one in a blue and yellow shirt, and one in a yellow shirt. The rocket has a red nose cone and a red light on its side.

Hold on tight, it's time to
fly!

Space is filled with tons
of different things.

A vibrant, cartoon-style illustration of two young children in a blue and red rocket ship. The children are wearing white space suits and helmets, looking out with excitement. The rocket is flying over a grey, cratered planet surface. A third child in a space suit is floating nearby. The background is a deep blue space filled with stars and a bright orange planet on the left.

Like planets, stars and
even the possibly other
beings.

Galaxies twirl and glow in
the middle of nowhere..

An illustration of two young children with dark skin and curly hair, wearing white space suits with red straps and clear bubble helmets. They are floating in a vibrant blue space filled with stars and a large, colorful, swirling nebula in the background. The child on the right is pointing their right index finger towards the nebula. The child on the left is looking up with a joyful expression. The scene is illuminated by the warm glow of the nebula and distant stars.

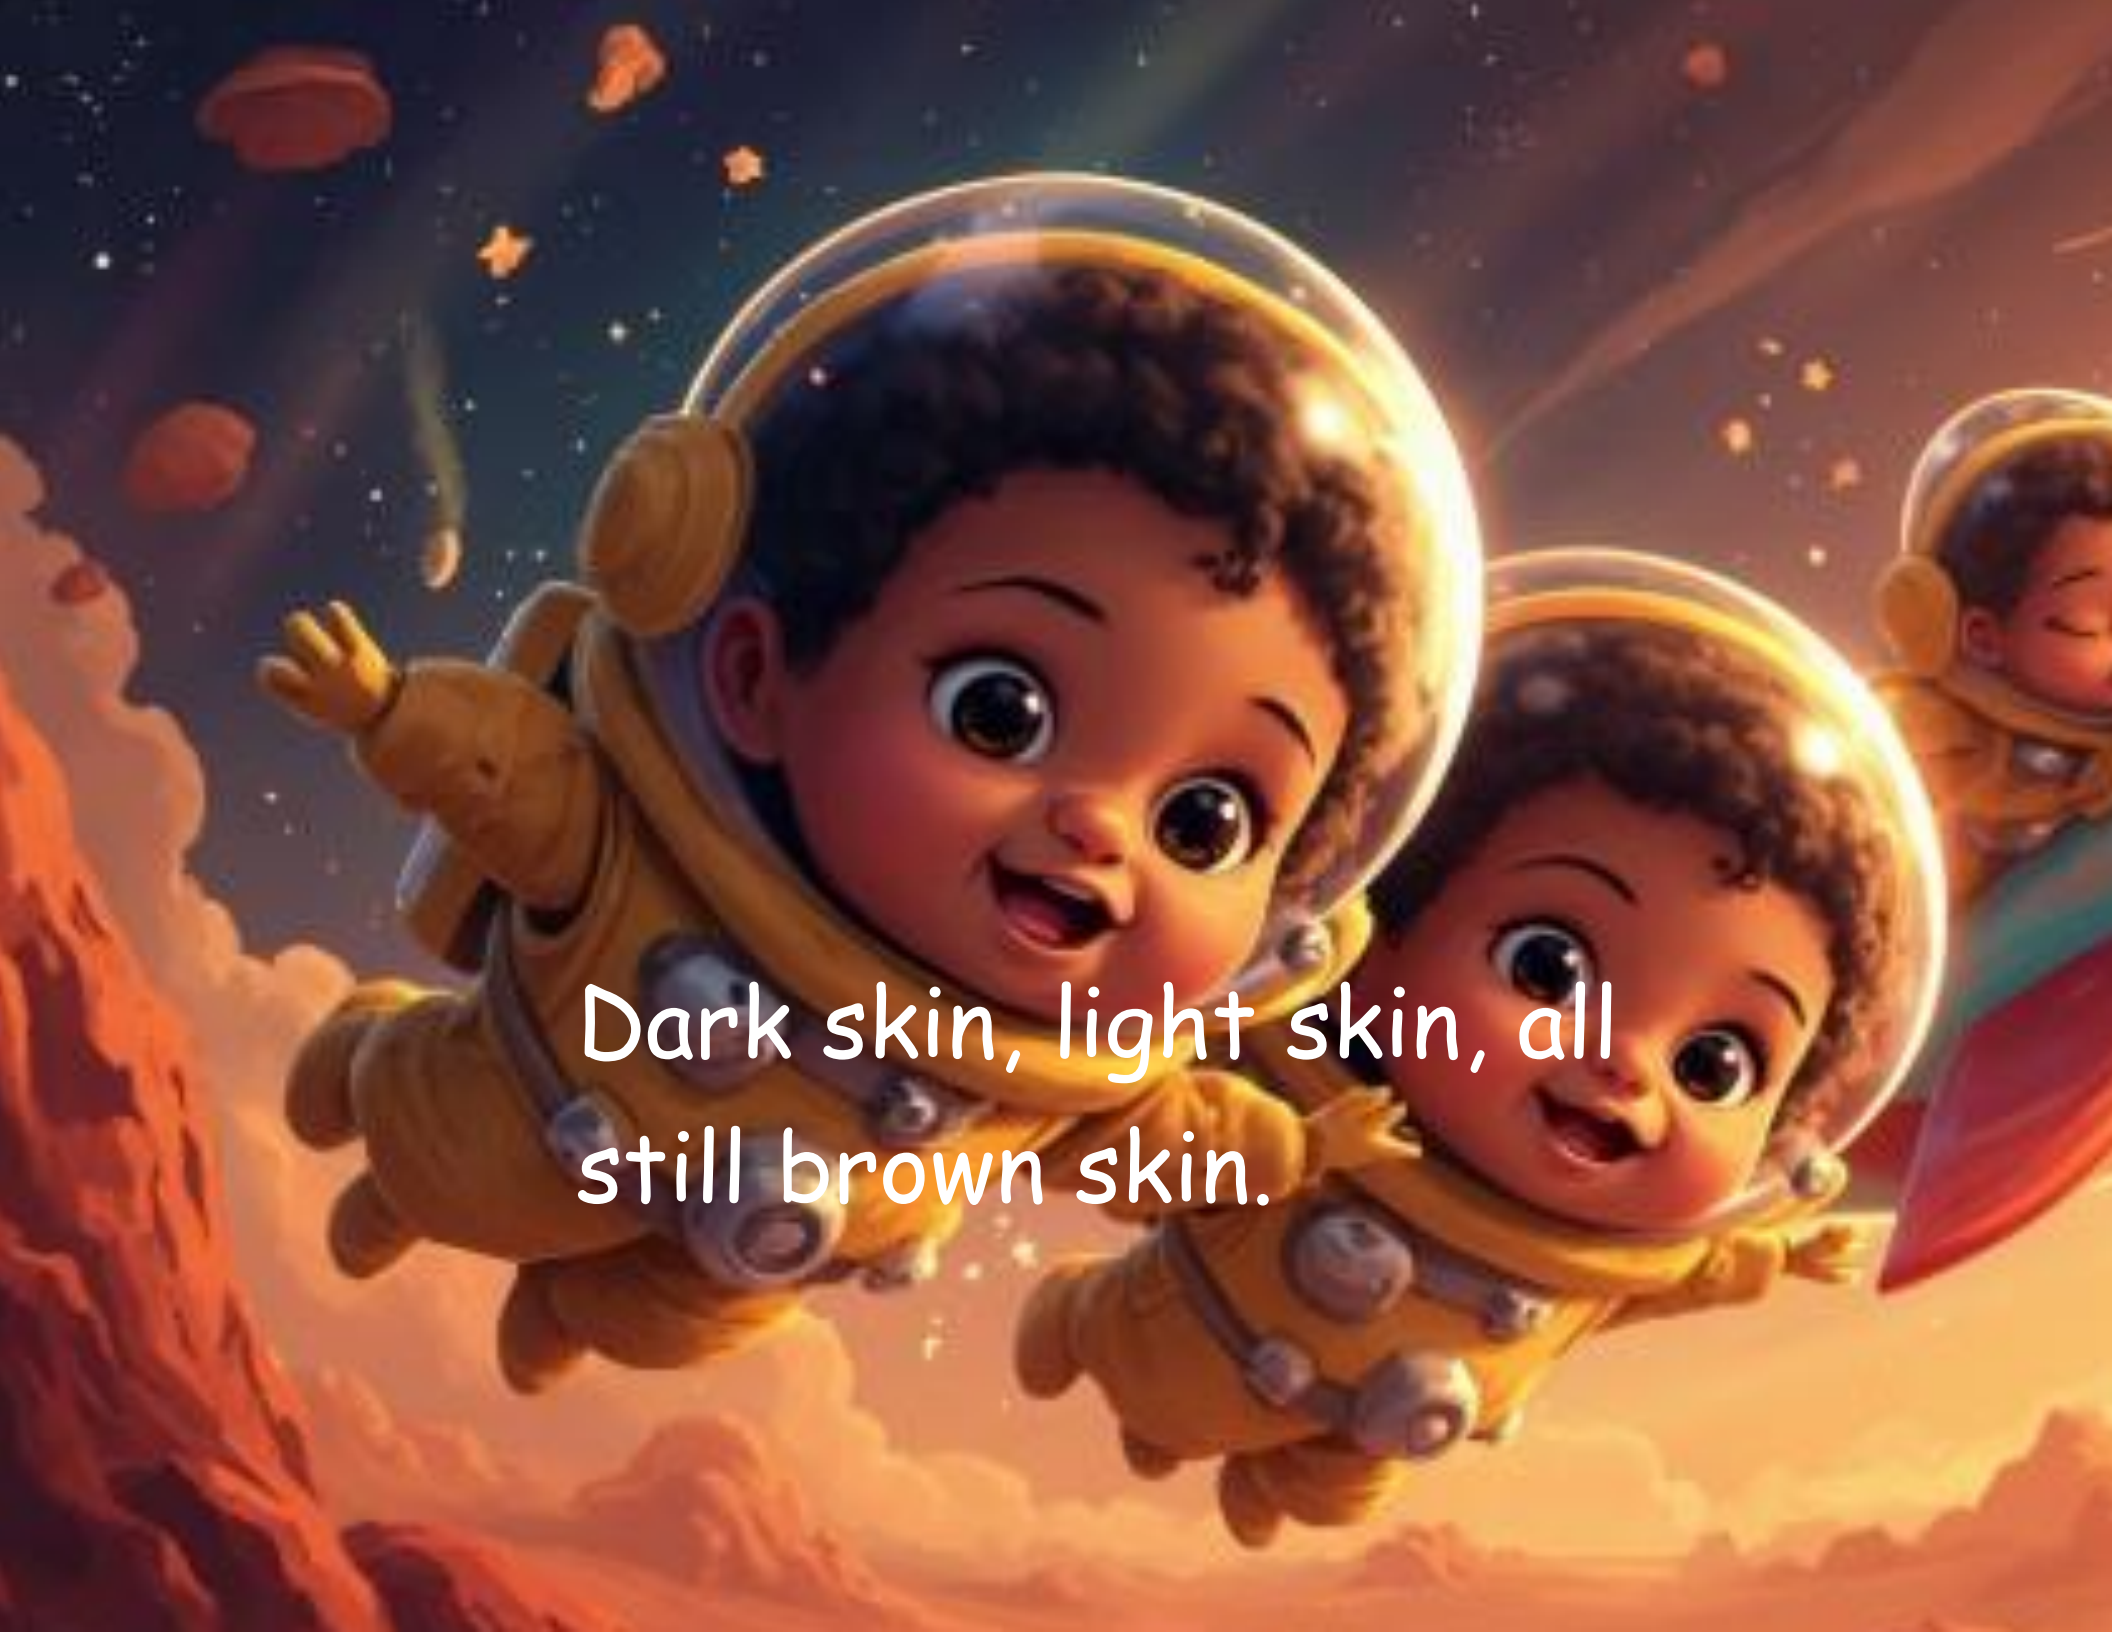

The Universes and
their suns shine to say
"I'm here!"

An illustration of three young children with dark skin and curly hair, smiling and looking out of a white rocket ship with red fins. They are wearing colorful space helmets (blue, green, and pink) and are floating in a dark blue space filled with yellow stars. The rocket is leaving a bright yellow and orange trail behind it.

Where stars sparkle in
the vast dark.

Where the sun, one
day got it's spark.

An illustration of three young astronauts with dark skin and curly hair, wearing yellow space suits and clear helmets. They are floating in space against a backdrop of a bright orange and yellow sunset or sunrise, with a large, jagged, reddish-brown rock formation on the left. The scene is filled with stars, small orange meteors, and a comet streaking across the sky. The astronaut in the foreground is looking up with a wide-eyed, joyful expression, while the others are also looking in the same direction with similar expressions of wonder and excitement.

Dark skin, light skin, all
still brown skin.

Everything you need is
always with in.

An illustration of four diverse young children of African descent, two boys and two girls, wearing yellow space suits and clear helmets. They are inside a colorful, stylized rocket ship with orange, red, and teal sections, flying through a bright, orange-hued sky. The child on the far left is smiling and holding a small object. The child next to them is also smiling and pointing forward. The child in the middle is looking forward with a focused expression. The child on the far right is smiling and holding the controls of the rocket. The overall scene is vibrant and celebratory, emphasizing diversity and the joy of space exploration.

Space treats you the
same, whether boy or
girl!

An illustration of three diverse children (two boys and one girl) smiling and waving from a yellow and red rocket ship. The rocket is flying over the Earth, with a bright orange flame at the tail. The background is a deep blue space filled with stars, a planet with rings, and a small blue planet. The children are wearing clear space helmets. The rocket has several colorful stars (red, green, blue, purple) on its side.

Space loves you all
around the world.

My wish is that you'll
grow to be big.

Learn about all
this life has to
give.

A vibrant, cartoon-style illustration of a young child with dark skin and curly hair, sitting cross-legged on a colorful patchwork blanket. The child is smiling broadly, looking directly at the viewer. The background is a bright, sunny outdoor scene with a clear blue sky, fluffy white clouds, and a hazy city skyline in the distance. The sun is low in the sky, creating a warm, golden glow and long rays of light. The overall mood is cheerful and uplifting.

And when you do
remember "You are
strong"

Remember,
"You are loved
all along."

Your melanin
is magic.

An illustration of two young children with dark skin and curly hair, smiling and looking towards the viewer. They are underwater, with bubbles visible around them. The child on the left is wearing a pink floral tank top and has a red snorkel mask on their head. The child on the right is wearing a blue and white striped tank top and has a blue and yellow snorkel mask on their head. The child on the right is holding a bright orange starfish in their right hand and a blue snorkel tube in their left hand. The background is a bright blue sky with soft, golden clouds, suggesting a sunny day. The overall mood is cheerful and adventurous.

What ever you want,
you can have it.

Don't forget that your
glow comes from above.

A close-up, artistic photograph of a young child with dark, curly hair sleeping peacefully. The child is wrapped in a thick, textured yellow blanket. Their face is in profile, with closed eyes and a slight smile. The background is a deep blue night sky filled with numerous bright, multi-pointed yellow stars of varying sizes. The overall mood is calm and tender.

Rest baby, rest. Good
night my love.
